Domestic Shipping Weight (lbs)	Weight with Export Boxing (lbs)	Export Box Dimensions (L, x W x H) (in)	Vertical Shaft Down Thrust Capacity (pounds)	10900	Thrust ratings vary greatly depending upon the transmitted power and the vertical shaft speed. The rating to the left are the axial loads that can be applied the fan shaft which will always result in a calculated bearing life greater than 100,000 hours. These ratings are based on the worse case from the power rating tables. All models can be supplied with larger thrust bearings or special bearing arrangements. Contact us when the fan loading conditions or the bearing life requirements cannot be satisfied with the ratings from the table.
